---

The Timberwolves big man is 2k23 mt a professional with a three-point percent which is 39.7 percent. He scored 41 percent when he was outside the arc during the 2021-2022 period. He's never scored less than 34 percent during a single season from deep. Also, Towns is the current NBA three-point contest champion.

There is no question the fact that Towns is a threat from long range. However, who would he replace on the NBA 2K23 top 5 list? Stephen Curry is the best shooter of all time. Klay Thompson is believed to be among the best shooting players ever. Meanwhile, Desmond Bane emerged as a formidable force from the depths this season. Luke Kennard makes his living on the three-ball. Also, Kevin Durant features an underrated three-point shot.

However, Towns will have no lack of determination to show NBA 2K23 wrong this season. He believes in his three-point ability and can make a statement with another strong season from beyond the arc. There's also a great possibility that Towns will participate in the three-point competition once again.

It's a given that there's nothing better than playing NBA 2K23 than creating and managing your own fantasy teams. There is no better alternative to include all your greatest legends and most adored professional players in one team, and dominate every player who steps on the court. This guide will help to create your fantasy teams to relive your childhood fantasies in NBA 2K23.
